

Dear Customer,

With the recent rains, Aqua Water Supply Corporation has moved from Stage 2 back to **Stage 1 Voluntary watering restrictions** of their Drought Response Plan. With this change, we have resumed new home and new sod watering allowances.

The District would like to thank the residents for their past and continued compliance with our valuable resource.

Stage 1

Voluntary Water Use Restrictions

Aqua WSC and the District are requesting customers to voluntarily limit the irrigation of landscaped areas to the watering schedule.

1. Customers should continue to follow the 2 days per week watering schedule. Outdoor watering should occur **between the hours of 12am – 10am and between 8pm – 12am.**
2. **No outside watering on Saturdays, Sundays, or Federal Holidays.**
